Amer Alyusuf

Eastern Province, Safwa | Kingdom of Saudi Arabia

Dear Hiring Team,

I Completed my Bachelor of Science in **Computer Information Systems** with a full minor in **Business Administration** from California State University, Chico; And have been working for 8 years as an IT professional with strong administrative and technical skills.

Managerial Qualifications:

- Achieved high-level certifications in **ITSM**.
 - ITIL Strategic Leader.
 - ITIL Managing Professional.
- Recently completed a Pre-MBA program in-order to pursue a full MBA in the near future.
- Experienced in GRC from the work performed in the past few years,
 - Currently implementing ISO 27001 for the IT department with collaboration from a consulting team.
 - Responsible for implementing and communicating necessary changes with management for complying with NCA-ECC requirements.
 - Achieved obtaining Saudi ARAMCO-CCC in 2021, and currently responsible for maintaining and renewing with audit reviews every 2 years.
 - Created, reviewed, and approved changes to department policies.
 - Created an Asset-Register and Risk-Register for the IT department.
 - Involvement in internal and external audits.
 - Creation of Security Awareness training programs.

Technical Qualifications:

- Started Programming from the year 2007. I used many programming languages throughout my career, including Java, C++, Ruby, SQL, JavaScript, and the most recent is Swift.
- Created, developed and released applications to the Apple App Store.
- Achieved a few programming certifications from Udemy, TUWAIQ Academy, and HackerRank.
- Created over 50 iOS applications throughout course studies.
- My work experience enhanced my technical knowledge by the exposure of various parts of technology. I have administrative roles in DomainController/ GroupPolicy, Firewall, EDR, NDR, and PatchManagement solutions.
